

Letter to the Editor:

Some one has to speak up! What kind of idiots do our town council think the citizens of Quartzsite are. Last council meeting they all made a big show of saving the town \$175 dollars a week in their salaries while approving \$338,000 in spending without any questions. The council members can't understand why the citizen would consider a recall and they continue to do the "towns business" without any consideration for the taxpayer who foot the bill.

Ed Foster
