For Councilmembers

Bill Moore, Chaunce Hamilton, Russell Sias

We stand for accountability and open government.

No one will be told to **'Be Silent'** at meetings over which we officiate.
If you have questions they will be answered or we will find an answer
because ***we believe we will be working for the people.***

We stand for spending reduction.

Spending has to remain within revenue limits.
We must find a way to deal effectively with the growing debt this town is facing.

We stand for reviewing the incredible rate increase the town has passed for our utility customers.

While it ***may ultimately be true that rates must be raised*** the schedule that the ***current council has passed*** is going to ***ruin many of our RV and mobile home parks.*** This is our core industry and their pleadings have fallen on deaf ears with the current government.

Without our RV and mobile home parks this town will surely be out of business.
We need leaders willing to ***find workable solutions*** and not try to ***ruin businesses to enrich the general fund so they can continue their free spending ways***
